### DETAILED ACTION

1. Applicant's Amendment filed 8/02/2005 has been fully considered and entered.

#### *Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance:

Independent Claims 1 & 8 are allowable over the Prior Art of Record since the cited references taken alone or in combination, do not teach or suggest: *discriminating a reproducing head whose tracing condition of a target track is appropriate from said multiple reproducing heads based on a result of the error correction, and generating an output signal using a signal obtained by the discriminated reproducing head wherein said reproduced signal processor executes said error correction and, when obtaining an error correction result indicating that the error correction is possible, the reproduced signal processor determines that a reproducing head corresponding to data, said data obtaining the error correction result, is a reproducing head whose tracing condition of a target track is appropriate.*

Independent Claims 15 & 20 are allowable over the Prior Art of Record since the cited references taken alone or in combination, do not teach or suggest: *discriminating a reproducing head whose tracing condition of a target track is appropriate from said multiple reproducing heads based on a result of the error correction, and generating an output signal using a signal obtained by the discriminated reproducing head and, further comprising a driving device for driving said head assembly in said track width direction corresponding to an amount of off track with respect to said target track.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Kashida et al. (US 5,790,746); Shimotashiro et al. (US 5,321,557); Inoue et al. (US 6,134,061) ; Yamasaki et al. (US 5,751,890), Asakura et al. (US 6,639,747 B2).
